

SRI SHANKARA CANCER HOSPITAL AND RESEARCH CENTRE

Dated: 12th April 2014

Dear all,

Greetings from Sri Shankara Cancer hospital and Research centre, Bangalore!

On behalf of the organising committee, it is my great pleasure to invite you to symposium on “Modern Radiotherapy - Current Practices and Future direction” which is being organised at our centre in collaboration with Indo American cancer Association (IACA) under their “Quality Improvement in Radiation Oncology -An Initiative of (IACA)” and AMPI -Karnataka Chapter.

The IACA invited faculty are Dr.Ashwatha Narayana, Dr.Jatinder Palta , Dr.Indira Das, and Dr.T.Ganesh . The scientific program is being enclosed.

To top it all, our AMPI national body executive committee members are convening a meeting at our centre, giving us an opportunity to exploit their expertise.

The unique program with mixed faculty of expert oncologists and physicists is intended to offer opportunities to learn and update about recent advances in radiotherapy and to exchange scientific ideas.

We shall appreciate if you can send in your questions on the topics of the scientific program which will help us to put it before the panel in the Question and Answers session.

We look forward to welcoming you in Bangalore.

With warm regards,

For organising committee.

S.S.Chitra
